

Introduction Student Conferences

We are excited to have one of America's best speakers with us today. His name is Sam Glenn. He is the author of **15** books, has appeared on TV, radio and spoken to more than **two million people** and to audiences as large as 75,000 people.

Sam knows success and failure. At one time, Sam operated a business in a billion dollar industry that was lost overnight in a fire. Riddled with depression and doubt, Sam got by working nights as a janitor and slept on borrowed floor space. But, through small changes to his attitude, Sam developed the courage to dream new dreams and experience a better life. Sam's simple philosophy is that life gets better when we get better.

Sam has a powerful message for you today, so please put your hands together and give an enthusiastic welcome to SAM GLENN!!!!
