

CHECKLIST for SAM GLENN's AV NEEDS and Art Performance

- Super simple rider - if you have any questions, please email or call us and we and we can walk you through any questions you have. Basically, all you need to get is a canvas and paint tarps and the event location will have the rest of what we need.

(BIG NOTE: If you are promoting your event, please do not show or post any of Sam's painting videos – keep the paint part a fun surprise. You are welcome to post or use any of Sam Glenn's speaking clips to promote your event.)

CHECKLIST for Sam Glenn's Art Performance

1. ___ **(2)** bottles of water for Sam to drink during his speech. (They don't have to be cold)
2. **IPOD hook up on stage for Sam's music during art performance.**
 - *SAM DOES NOT DO OR HAVE ANY POWERPOINT, SO NO PROJECTER IS NEEDED.*
3. ___ **(1)** 8 foot table or 2 (6 foot tables) (on stage or where Sam is speaking) **this is for his paint.**

4. **2 Chairs on Stage or 2 easel stands work also** – Sam will put these on top the table to

create a sturdy and effective easel. (see final set up pics)

___ \$ **You will need to purchase a 48x48 inch canvas and paint it black or order a pre-painted black canvas online.** (Best option is a gallery wrap style – which is thicker canvas and more sturdy. If you have a small group under 100 people, you can go with a 48x48 canvas size)

- HERE IS LINK TO ORDER A PRE-PAINTED BLACK CANVAS. (Order 3-4 weeks in advance)

www.WholesaleArtsFrames.com

Art Canvas Pic for Example: Must be painted black prior to Sam arriving. Doesn't have to be perfect, or order a black one online.

- www.WholesaleArtsFrames.com

If you want to purchase a canvas at Micheals or Hobby Lobby – down load their app and save up to 40% off the canvas. But you will have to paint it black with any acrylic black paint.

5. ___ Minimum (2) painting tarps from the hardware store or Walmart. Best sizes: 9 x 12 size works best or around that size. It doesn't have to be exact.) **Better safe than sorry when it comes to catching paint. We like to be safe.**

6. Hand held mic or Label (NO HEADSET MICS) -volume turned up, lower the bass – turn up the highs. It should NOT sound like a WEDDING DJ. 😊

NO PLASTIC WRAP STUFF. IF IT LOOKS LIKE PLASTIC WRAP and seems flimsy – DON'T GET IT 😊.

7. **OPTIONAL** if lighting is average to poor - LED LIGHT: If the lighting is average, poor or you are unsure – please pick up a LED work light at any local hardware store or Walmart. This will brighten the painting as Sam paints – so people in the back can see what is being done. ***(If you have really good stage lighting, and it's bright, then you can skip this request.)***

8. **(1)** 8 foot table outside room or in the back for Sam's educational resources, give away and books.

Example of Final SET UP Look

- Behind the canvas are chairs or easels, which serves as the source of support. If you have a really sturdy flip chart easel, we can also use that as well. Again, it may look like a lot, but its all really simple to set up.

Questions and Answers.

1. Sam brings his own paint.
2. Sam does not throw paint all over, so you really don't need to worry about that aspect. Just have some good tarps and Sam will cover everything to be safe. Sam takes a very fun, laid back approach to his art.
3. Sam will set everything up at sound check, so please ensure a good time when minimal people are around and have everything ready to go. If everything is ready to go, on-site – sound check and set up goes really fast.

It seems like a lot, but trust us – it's worth it!! And if you have any questions, we are here to simplify this and help any way we can.

Thank you!
